German Democratic Republic

A. PLANNED EXPANSION OF CHEMICAL PLANT POWER STATIONS AND OUTPUT DATA

25X1 A. This part of the report gives information on the additional equipment to be installed in the Bitterfeld Power Plant and in power stations of the Wolfen Film Plant, the
25X1 Wolfen Chemical Dyes Plant, the Schkopau Buna Plant, the Leuna Plant, and the Deuben Plant, which is necessitated by the planned expansion of these plants in the period 1951-1955. In addition, there are two tables giving detailed power output figures for power stations of 12 East German chemical plants for October and November 1950, and one table listing less
25X1 comprehensive output figures for power stations in six other plants for the same period.
